

MSBA's Center for Education Safety

Behavioral Risk Assessment Team Training

Following the Virginia Model for Behavioral Risk Assessment, school teams will address the roles of team members, school and community engagement, policies, procedures and case management. Teams that attend the training will be able to begin implementation of the Missouri Model upon return to the school district.

Participants will learn to:

- Identify subjects of concern.
- Gather information and investigate.
- Assess and manage the subject and situation.

Recommended Teams

- School administrator
- Counselor/Mental health professional
- Teacher
- School resource officer/local law enforcement representative

MSBA Member Districts

\$400 per team of four
\$50 per additional team member

Non-Member Districts

\$800 per team of four
\$100 per additional team member

Comprehensive School Safety Assessments

MSBA/CES has a proven program to identify gaps in safety and provide recommendations to assist the district to prioritize safety initiatives. Safety assessments support the school district identifying exposures and risk, and suggesting possible "reasonable measures" to make your schools safer.

2017 Safe Schools and Colleges Conference

October 4 - 5, Osage Beach
Request for presentations at the Safe Schools Conference ends April 30. Submit a presentation to Kara Sanders, sanders@moces.org.
