Missouri School Boards' Association

# AFFILIATE MEMBERS PROGRAM *for Higher Education*

"We have big goals to increase educational attainment in Missouri. One of the ways that we can do this is by collaborating with our K-12 partners to reach more students, families, and educators. This is one reason why it's important for our higher education institutions to become Affiliate Members of the Missouri School Boards' Association."

Zora Mulligan  
Missouri Commissioner of Higher Education

Melissa Randol, Esq.  
MSBA's Executive Director

## Join us at MSBA

The Missouri School Boards' Association believes a strong relationship between K-12 education and higher education is essential in order to prepare our students for the future. Our public schools not only produce the majority of the students attending college in our state, but local school boards

also hire the teachers and administrators produced by our colleges. In order to strengthen that relationship, we are pleased to offer an Affiliate Membership opportunity to institutions of higher education.

Affiliate Membership will not only expand the collaborative opportunities between K-12 and higher education, it will also allow your institution to take advantage of many services and resources offered through MSBA, including a number of experts on the issues and opportunities facing K-12 education.

I invite your institution to give serious consideration to Affiliate Membership with the Missouri School Boards' Association. A closer relationship between local school boards and institutions of higher education can only benefit our students, our institutions of higher education, and ultimately, Missouri.
