

Understanding the Missouri Model Superintendent Evaluation

This online video series is designed to help school boards and superintendents become familiar with the recommendations for educator evaluations and the Missouri Model Superintendent Evaluation. The videos follow a fictional school board in a series of board meeting vignettes over a period of about four months as they work through the process for superintendent evaluation.

Board members and the superintendent may view the videos independently at any time or as a group. The entire series can be viewed in segments or in its entirety.

Complete the registration form below. Login credentials will be sent directly to each individual enrolled.
